Home Visiting Services for families in Coos County

Babies First! - Parents As Teachers
If you would like more information about raising a child from birth to 5 years of age, this could be the program for you! Skilled Public Health Nurses and Public Health Parent Educators work closely with you to help you be your child’s first and best teacher and help your child reach his/her maximum potential. We offer families a wide range of services including:

- Helping you support your child’s growth & development,
- Serving as your personal parenting coach to strengthen & expand your parenting skills,
- Providing periodic developmental screenings for your child including: social emotional, gross and fine motor, problem solving and communication development; height and weight monitoring; hearing, vision, dental and autism screenings.
- Supporting and strengthen your relationship with your child,
- Sharing home safety tips as your child grows, and
- Providing referrals and consultation with medical care and other services.

We offer weekly-to-monthly visits to best meet you and your child’s needs and schedules.

CaCoon
CaCoon stands for “Care Coordination” and is a home visiting program designed for children (ages birth to 21 years of age) with special needs and their families. The goals of this program are to help you:

1. Become as independent as possible in caring for special needs children,
2. Access appropriate resources and services to best meet your child’s unique needs, and
3. Identify ways to maximize your child’s potential at home, at school, and as part of the community.

Visits are provided by Public Health Nurses and Parent Educators and include:

- Helping you identify and monitor your child’s health and development needs,
- Linking you to specialty health care & community resources as appropriate,
- Supporting and advocating for you and your child to obtain needed services, and
- Coordinating with other health and community partners to identify and obtain needed resources.
