FOR IMMEDIATE RELEASE

ALERT! Changes in Coos County Risk Metrics

Coos Health & Wellness is working hard to keep you informed on the status of COVID-19 guidelines in Coos County. We will continue to provide updates as these situations change.

Data from Oregon Health Authority shows that our county entered a warning week on 12/7/2020 by exceeding the number of new cases allowed in a two week look back window. This look back window was from 11/22/2020 to 12/05/2020 and showed 207.00 cases per 100,000.

On 12/14/2020 we received data from Oregon Healthy Authority showing the newest numbers are 246.5 per 100,000 and the case positivity rate is 4.8%. The look back window for that data will be 11/29/2020 to 12/12/2020.

The number of cases per 100,000 is still over 200 so we will be moving to the Extreme Risk category guidelines on 12/18/2020.

Once we enter the Extreme Risk Category we would need to show numbers below 199.99 cases per 100,000 for two consecutive look back periods in order to move down to High Risk category again.

Planning for Risk Level Changes

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
WARNING WEEK	Case numbers show increased Risk Level					
ACTION WEEK	Case numbers STILL show increased Risk Level				Effective Date for increased Risk Level	

For more detailed information, please see the governor's website here.

<https://coronavirus.oregon.gov/Pages/default.aspx>

You may access the web based School Metrics Dashboard for additional details including previous data [HERE](#).

It is up to us, as a community, to be the best public health stewards we can be. We are asking that you follow the guidelines such as social distancing, wearing a face covering in public and using good hand hygiene to help keep our case counts low enough that we can get our schools re-opened for the benefit of our children. If you have any questions regarding COVID-19, please visit our website [HERE](#) for the most recent guidance, or email us at covid19.questions@chw.coos.or.us.

PARA PUBLICACIÓN INMEDIATA

¡ALERTA! Cambios en las estadísticas métricas de riesgo del condado de Coos

Coos Health & Wellness está trabajando arduamente para mantenerlo informado sobre el estado de las regulaciones del COVID-19 en el condado de Coos. Nosotros continuaremos proporcionando actualizaciones a medida que vaya cambiando la situación.

Los datos de la Autoridad de Salud de Oregon muestran que el 12/7/2020 nuestro condado entró en una semana de advertencia al exceder el número de casos nuevos permitidos en una ventana retrospectiva de dos semanas. Este tiempo al que le llamamos ventana retrospectiva fue del 22/11/2020 al 05/12/2020 y mostró 207,00 casos por 100.000.

El 14/12/2020 recibimos nuevamente datos de Oregon Healthy Authority que muestran que los números más recientes son 246.5 por 100,000 y la tasa de casos positivos es de 4.8%. La ventana retrospectiva para esos datos será del 29/11/2020 al 12/12/2020.

El número de casos por cada 100.000 sigue siendo superior a 200, por lo que el 18/12/20 pasaremos a las pautas/recomendaciones de la categoría de riesgo extremo.

Una vez que ingresemos a la categoría de riesgo extremo, tendríamos que mostrar números por debajo de 199.99 casos por 100,000 durante dos períodos consecutivos de retrospectiva para volver a bajar a la categoría de alto riesgo.

Para obtener información más detallada, consulte la página web del gobernador aquí.

<https://coronavirus.oregon.gov/Pages/default.aspx>

Para más detalles de información anterior, usted puede acceder al panel de las medidas métricas en la página web de la escuela [AQUÍ](#).

Depende de nosotros, como comunidad, ser los mejores administradores de salud pública que podamos ser. Le pedimos que siga las pautas/guías como el distanciamiento social, el uso de una cubierta facial en público y una buena higiene de manos para ayudar a mantener nuestro recuento de casos lo suficientemente bajo como para que podamos reabrir nuestras escuelas en beneficio de nuestros niños. Si tiene alguna pregunta sobre COVID-19, visite nuestra página web [AQUÍ](#) para obtener la orientación más reciente, o envíenos un correo electrónico a covid19.questions@chw.coos.or.us.

Sector Risk Level Guidance Chart

Activities	Lower Risk	Moderate Risk	High Risk	Extreme Risk
Social and At-Home Gathering Size — Indoor	- Maximum 10 people - Recommended limit: 4 households	- Maximum 8 people - Recommended limit: 2 households	- Maximum 6 people - Recommended limit: 2 households	- Maximum 6 people - Recommended limit: 2 households
Social and At-Home Gathering Size — Outdoor	Maximum 12 people	Maximum 10 people	Maximum 8 people	- Maximum 6 people - Recommended limit: 2 households
Eating and Drinking Establishments	- Indoor dining allowed - Indoor capacity: not to exceed 50% maximum occupancy - Outdoor dining allowed - Outdoor capacity: 300 people maximum - Indoor and outdoor seating: 8 people per table maximum 12:00 a.m. closing time	- Indoor dining allowed - Indoor capacity: not to exceed 50% maximum occupancy or 100 people, whichever is smaller - Indoor seating: 6 people per table maximum - Outdoor dining allowed - Outdoor capacity: 150 people maximum - Outdoor seating: 8 people per table maximum 11:00 p.m. closing time	- Indoor dining allowed - Takeout highly recommended - Indoor capacity: not to exceed 25% maximum occupancy or 50 people, whichever is smaller - Outdoor dining allowed - Outdoor capacity: 75 people maximum - Indoor and outdoor seating: 6 people per party and per table maximum, limit 2 households 11:00 p.m. closing time	- Indoor dining prohibited - Takeout highly recommended - Outdoor dining allowed - Outdoor capacity: 50 people maximum - Outdoor seating: 6 people per party and per table maximum, limit 2 households 11:00 p.m. closing time
Indoor Recreation and Fitness Establishments (includes gyms, fitness organizations, indoor recreational sports, indoor pools)	Capacity: Maximum 50% occupancy	Capacity: Maximum 50% occupancy or 100 people total, whichever is smaller	Capacity: Maximum 25% occupancy or 50 people total, whichever is smaller	Prohibited
Indoor Entertainment Establishments (includes aquariums, indoor theaters/arenas/concert halls, indoor gardens, indoor museums, indoor entertainment activities of any kind)	Capacity: Maximum 50% occupancy	Capacity: Maximum 50% occupancy or 100 people total, whichever is smaller	Capacity: Maximum 25% occupancy or 50 people total, whichever is smaller	Prohibited
Retail Stores (includes street fairs/markets, grocery stores, convenience stores and pharmacies)	- Capacity: Maximum 75% occupancy - Curbside pick-up encouraged	- Capacity: Maximum 75% occupancy - Curbside pick-up encouraged	- Capacity: Maximum 50% occupancy - Curbside pick-up encouraged	- Capacity: Maximum 50% occupancy - Curbside pick-up encouraged
Indoor and Outdoor Shopping Centers/Malls	- Capacity: Maximum 75% occupancy - Curbside pick-up encouraged	- Capacity: Maximum 75% occupancy - Curbside pick-up encouraged	- Capacity: Maximum 50% occupancy - Curbside pick-up encouraged	- Capacity: Maximum 50% occupancy - Curbside pick-up encouraged
Faith Institutions, Funeral Homes, Mortuaries, Cemeteries	- Indoor Capacity: Maximum 75% occupancy - Outdoor Capacity: 300 people maximum	- Indoor Capacity: Maximum 50% occupancy or 150 people total, whichever is smaller - Outdoor Capacity: 250 people maximum	- Indoor Capacity: Maximum 25% occupancy or 150 people total, whichever is smaller - Outdoor Capacity: 200 people maximum	- Indoor Capacity: Maximum 25% occupancy or 100 people total, whichever is smaller - Outdoor Capacity: 150 people maximum - Recommended: limit services to one hour
Offices	Limited office work available	Recommend remote work, if able	Recommend remote work, if able	- Require remote work, if able - Close offices to the public, if possible
Outdoor Recreation and Fitness Establishments (includes outdoor gyms, outdoor fitness organizations, outdoor recreational sports, outdoor pools, outdoor parks and hiking trails*, outdoor campgrounds*)	Maximum 300 people	Maximum 150 people	Maximum 75 people	Maximum 50 people
Outdoor Entertainment Establishments (includes zoos, outdoor gardens, outdoor aquariums, outdoor theaters/stadiums)	Maximum 300 people	Maximum 150 people	Maximum 75 people	Maximum 50 people
Personal Services	Allowed	Allowed	Allowed	Allowed
Long-Term Care	Inside and outside visitation allowed	Inside and outside visitation allowed	Inside and outside visitation allowed	Outside visitation only

Authority: Executive Order No. 20-66, ORS 433.441, ORS 433.443, ORS 431A.010

Enforcement: To the extent this guidance requires compliance with certain provisions, it is enforceable as specified in Executive Order 20-66.

Definition:

- "Maximum Occupancy" means the maximum occupancy permitted by law, or if the maximum occupancy is unknown the capacity equivalent to 86 square feet of space per person.
 - Capacity limits do not apply to this activity.

Additional Notes:

- All activities are subject to more detailed, sector-specific guidance.
- Subject to more detailed sector-specific guidance, all activities assume mask usage, minimum physical distancing, provisions for hand hygiene and enhanced cleaning protocols.
- Congregate homeless sheltering, Youth Programs, Childcare, K-12 Schools, Higher Education, Drive-In Operations and current Division 1 and Professional Athletics exemptions operate under sector specific guidance for all risk levels.

Document accessibility: For individuals with disabilities or individuals who speak a language other than English, OHA can provide information in alternate formats such as translations, large print, or braille Contact the Health Information Center at 1-971-673-2411, 711 TTY or COVID19.LanguageAccess@dhs.ohs.state.or.us

GENERAL METRICS FOR RETURNING TO IN-PERSON INSTRUCTION THROUGH THE ON-SITE OR HYBRID MODEL Version 10/28/2020

For a school to fully return to in-person instruction through ODE's On-Site or Hybrid instructional models, the criteria below must be met, including the metrics table that follows:

If a school draws >10% of students or >10% of staff from a given county where case rates or test positivity put them in the "Transition" column (see metrics table below) they should consider delaying a return to in-person instructional models until these counties also meet the required metrics, unless after discussion with the local public health authority a collaborative decision is made that the neighboring county community spread does not pose significantly higher-risk.

METRICS & MODELS	ON-SITE	ON-SITE AND DISTANCE LEARNING	TRANSITION	DISTANCE LEARNING
County Case Rate per 100,000 People Over 14 days	<50.0	50.0 to <100.0	100.0 to ≤200.0	>200.0
County Case Count Over 14 days (for small counties ¹)	<30	30 to <45	45 to ≤60	>60
County Test Positivity ²	<5.0%	5.0% to <8.0%	8.0% to ≤10.0%	>10.0%
Instructional Model	Prioritize On-Site or Hybrid (as needed to maintain small cohorts) instructional models.	Prioritize careful phasing in of On-Site or Hybrid for elementary schools (starting with K-3 and adding additional grades up to grade 6). Middle school and high school primarily Comprehensive Distance Learning with allowable Limited In-Person Instruction. Over time, if elementary schools can demonstrate the ability to limit transmission in the school environment ⁴ , transition to On-Site or Hybrid.	Consider transition to Comprehensive Distance Learning with allowable Limited In-Person Instruction. → For counties with an upward case/positivity trend (entering from a lower risk category), school officials should discuss with their local public health authority (LPHA) and consider the spread of COVID-19 within schools and the local community in deciding whether to return to Comprehensive Distance Learning (CDL). ³ ← Schools in counties with downward case/positivity trend must remain in CDL until they drop into the Moderate Risk category or lower.	Implement Comprehensive Distance Learning with allowable Limited In-Person Instruction only.

- Counties with <30,000 residents.
- If statewide testing volume decreases by more than 10% in the week prior compared to the previous week due to external factors (such as due to a natural disaster or acute decrease in testing supplies), then OHA and ODE will consider temporarily suspending the use of percent positivity in the reopening considerations.
- In considering community spread, public health should take into consideration the cases in the community, COVID-19 test availability in the community, recent percent positivity of tests, capacity in the community to respond to cases and outbreaks and the regional hospital capacity available for those with severe disease.
- As a measure to monitor limited introduction or spread, local public health should look for an average outbreak size of 3 or less, excluding outbreaks with only one case, over the prior 4 weeks.
